EXPRESSION OF INTEREST TO EXPORT AGRICULTURAL PRODUCTS [PHARMACEUTICALS]

**COMMON TYPES OF NATURAL SUPPLEMENTS

1. **Vitamins:** Natural supplements that provide essential vitamins, such as vitamin C, vitamin D, vitamin E, and the various B vitamins (e.g., B1, B2, B6, B12).
2. **Minerals:** Supplements containing essential minerals like calcium, magnesium, iron, zinc, selenium, and potassium.
3. **Herbal Supplements:** These supplements are made from various parts of plants, including leaves, roots, stems, and flowers. Examples include:
 - a. Echinacea
 - b. Ginseng
 - c. Ginkgo biloba
 - d. Turmeric (curcumin)
 - e. St. John's Wort
 - f. Milk thistle
4. **Botanical Extracts:** Concentrated extracts from plants or herbs that may offer specific health benefits. Examples include:
 - a. Green tea extract
 - b. Saw palmetto extract
 - c. Garlic extract
5. **Amino Acids:** Supplements containing individual amino acids or amino acid combinations, which are the building blocks of proteins.
6. **Probiotics:** Live bacteria and yeasts that are beneficial for gut health. Common strains include Lactobacillus and Bifidobacterium species.
7. **Fish Oil and Omega-3 Fatty Acids:** Often taken for heart and brain health, these supplements are derived from fish oil sources like salmon, mackerel, and krill.
8. **Coenzyme Q10 (CoQ10):** A natural antioxidant that supports cellular energy production and heart health.
9. **Melatonin:** A hormone that regulates sleep patterns and is commonly used as a sleep aid.
10. **Collagen:** A protein supplement that may support skin, joint, and bone health.
11. **Glucosamine and Chondroitin:** Supplements used for joint health and the management of osteoarthritis.
12. **Antioxidants:** Compounds like resveratrol, quercetin, and alpha-lipoic acid that help protect cells from oxidative damage.
13. **Herbal Teas:** Natural teas made from herbs like chamomile, peppermint, and ginger, often consumed for relaxation or digestive health.
14. **Adaptogens:** Natural substances like ashwagandha and rhodiola that are believed to help the body adapt to stress.
15. **Fibre Supplements:** Products that provide additional dietary fibre for digestive health.
16. **Mushroom Supplements:** Derived from various mushroom species like reishi, cordyceps, and chaga, which may have immune-boosting properties.
17. **Multivitamins:** Supplements that combine a variety of vitamins and minerals to meet daily nutritional needs.
18. **Homoeopathic Remedies:** Extremely diluted natural substances used in alternative medicine for various purposes.
19. **Plant-Based Proteins:** Natural protein supplements derived from plants like pea protein, hemp protein, and soy protein.
20. **Essential Fatty Acids:** Supplements containing omega-6 and omega-9 fatty acids, such as evening primrose oil and flaxseed oil.
